

Calling anyone who would like to take part in Art Week this year

26-30th June

I am looking for people to come and help in our whole school project. It doesn't have to be parents; anyone in the community or wider family are welcome. We will be making large wall hangings for the hall and I need a group of adults to work with small groups of children. You don't need to have any particular skills just a willingness to get involved and have fun. If you can volunteer any time in this week please contact me ASAP so we can get together and make some plans.

*If you do have any resources or experience with textiles in particular please let me know.

Many thanks

Mrs Barratt
