## Geometry: Position and Direction

Progression of Skills:

- Position, Direction and Movement
- Pattern

## Position, Direction and Movement

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Describe position, direction and movement, including half, quarter and three-quarter turns. | Use mathematical vocabulary to describe position, direction and movement including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise). |  | Describe positions on a 2-D grid as coordinates in the first quadrant. | Identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language and know that the shape has not changed. | Describe positions on the full coordinate grid (all four quadrants). |
|  |  |  | Describe movements between positions as translations of a given unit to the left/right and up/down. |  | Draw and translate simple shapes on the coordinate plane, and reflect them in the axes. |
|  |  |  | Plot specified points and draw sides to complete a given polygon. | Build on year 4 to ensure mastery. $\square$ |  |
| Pattern |  |  |  |  |  |
|  | Order and arrange combinations of mathematical objects in patterns and sequences. | Build on year 2 to ensure mastery. |  |  | $\rightarrow$ |
