

**Wintry weather and potential
closure of the school
in the event of heavy snow**

27th February 2018

Dear Parents and Carers

The weather forecast today seems to be warning of potential wintry weather coming soon.

We are anticipating the school being open as usual throughout this week. If however, the weather situation changes and we are forced to alter our plans and close the school, parents are advised to check our school website www.woodboroughschool.org, look out for email/text notification and listen to or visit the websites of BBC Wiltshire or Heart FM, where information about school closures will be regularly updated.

We would also like to remind parents and carers that all children should be well equipped for the cold weather and should wear appropriate footwear and bring coats, hats, scarves and gloves as necessary (all labelled, please).

We will endeavour to keep all areas of the school site salted and safe during icy weather but would encourage everyone coming and going from school to be extra careful and vigilant.

Finally, please take extra care when using the Social Club car park and particularly the ramped entrance/exit. There is a salt bin directly opposite the car park and we would encourage users of the car park to spread some salt freely if they are concerned that the area is slippery.

Yours sincerely
Sarah Brewis
Headteacher
