

# Cherry Class Term 5

Thank you so much for your positive feedback and encouragement after the first two weeks of Home Learning. It has been a very steep learning curve for us both to teach remotely but we will continue to embrace the challenges it presents and aim to make learning from home as engaging and fun as possible.

**Our topic this term is light.**

**We shall try and link activities from other curriculum areas where possible.**

To assist with your own work commitments and managing home learning for multiple children, we will try to set more activities that promote independence and we will continue to use Seesaw to do so. Daily activities will include an English and a Maths task. Activities for other curriculum areas will be set more sporadically. We still expect the children to read daily and to continue with their x-table (2, 3, 4, 5, 8 and 10) practise.

We would like you to keep encouraging the children to stay physically active, be it by joining in with Joe Wicks in the mornings, playing out in the garden as much as possible or doing some children's workouts on YouTube. There is so much to choose from.

On the less sunny days maybe the children could learn a new skill such as touch typing, learning British Sign Language with Natasha Lamb or improving on their sketching skills by using step by step instructions or follow Lunch Doodles with Mo Willems (all on YouTube).

**“Life is a journey to be experienced, not a problem to be solved.”**

**We understand that this could be challenging for you to manage. Please don't feel pressure to complete everything if it's not possible. As long as you are doing what you can, when you can, that is enough. We are only an email away if you need any further advice or support.**

Thank you for your continuing support,

Mrs Barratt and Mrs Crichard
